

## Merry Christmas & Happy Holidays

Elaine and I  
wish all of you  
a safe, happy and  
special holiday season!

### Something great to share with you!

Sherry Chevalier of Klasique Goldens has been kind enough to allow me to share her wonderful puppy desensitizing toy with all of you!

Please see attached document to learn how to make your own!

Thanks Sherry...it's very kind of you to share!

### New Training Sheet For Kits!

Puppies ... love to chase and nip! Parents and Children ...not so much!

We've created a new training sheet to go in each Kit. It's labelled "Children & Puppies"

By exposing, assessing, re-directing and de-arousing, we can help puppies stay calm while watching from the sideline instead of jumping in to play, correct or control the children!

Of course, we had to take into consideration the fear imprint period and the critical social stage of development in the creation of the sheet. We are attaching a copy for you to see and are happy to mail them to all of you who have pre-ordered Kits in your own homes! Simply send me an e-mail at [rachelle@windywillowspetservices.ca](mailto:rachelle@windywillowspetservices.ca)

*(this new exercise will be included in the Chart on our next re-print)*
