

The Happy Puppy Update

Winter 2016

Keeping Our Children Safe - Bite Prevention

“Dogs are our link to paradise. They don't know evil or jealousy or discontent. To sit with a dog on a hillside on a glorious afternoon is to be back in Eden, where doing nothing was not boring It was peace.”
by Milan Kundera

We are very excited to share with you that with a new joint initiative we will be reaching thousands of extra children & families across Canada with our Introduction to Canine Body Language Booklet in 2016!!

Bite Prevention - At the forefront for 2016! We are investing time and energy with children this year and will keep you posted on our progress!

Continued Education - We are always continuing our education & Elaine has taken comprehensive training on pet nutrition with Royal Canin. This has been of great assistance to me in helping families with behavioural issues in their dogs as nutrition also plays a vital role in behaviour! Should you have nutritional questions, please don't hesitate to email us!

As you all know, we are having extreme success with The Happy Puppy Training Kit. We estimate a 98% success rate and through continued feedback believe that most families that struggle are those that have not followed the program as it is laid out. We have decided to create a video which can be personalized for you, our breeder clients, to place on your website or share with your approved families. This video speaks volumes about everything you do as responsible breeders which affects the future behaviour of your puppies and how The Happy Puppy Training Kit helps owners pick up where you left. Cantope Standard Poodles have authorized us to share their video with all of you which will be placed on their website. Simply follow the link on our cover email to see the video and send me an email should you want a free personalized copy for your breeding program!
