Did You Know?

Paul McCartney has always been a dog-lover animal activist.

However, he also likes to have some mischievous fun with them. Sgt.

Pepper's Lonely Hearts Club Band closer "A Day in the Life" includes a 15-kilocycle whistling noise, the same sound as a police dog whistle.

Humans cannot hear it as it really sounds, but it can make your canine perk up. Next time you play this song watch your furry friend.
